

● Optional Board

● Card Reader (Optional)

● QR Code Scanner (Optional)

4 Wiring Diagram

- It is recommended to use Hikvision matched distribution cabinet (sold separately) to covert the AC mains power to 24 V.
- Power supply: 24 V DC; Power supply voltage fluctuation range: $\pm 5\%$.
- The ① and ② refer to the two sides of a same board.
- The supplied interconnecting cables need connecting on-site: CAT5e Communication cable. The cable is 3 m in length and put inside the package.
- RS series swing barrier supports main lane control board only.

5 Quick Start

● Activation

- Make sure the device and the computer are under the same network segment.
- Enter the device default IP address (192.0.0.64) and create a new password (admin password) to activate the device.
- Download SADP or client software from the official website and run it, search all devices on your LAN, select your device and create a new password (admin password) to activate the device.

- We highly recommend you create a strong password of your own choosing (using a minimum of 8 characters, including upper case letters, lower case letters, numbers, and special characters) in order to increase the security of your product. Characters containing admin and nmda are not supported.

● Configuration via PC Web

Make sure the device is activated. Enter the device IP address in the address bar of the web browser and press **Enter** to enter the login page. Enter the device user name and the password. Click **Login**.

● Configuration via Mobile Web

If device hotspot is disabled: Make sure your mobile phone and the device are connected to the same network. Place your phone to the NFC area and the device IP address will pop up, tap the address to go to the login page.

If device hotspot is enabled:

Android System: Place your phone to the NFC area and the name and password of the device hotspot will be obtained automatically. Confirm to connect, you will go to the login page.

iOS Ssystem: Enable the phone's Wi-Fi function, and connect to the current device's hotspot. After hotspot is connected, you will go to the login page.

Hotspot Name: AP_ Serial No.

Hotspot Password: Device's Serial No.

You can configure the turnstile basic parameters, keyfob settings, light settings, network settings, access control settings, etc.

● Configuration via Client Software

After downloading the client software, you can conduct device management, group management, person management and access control management.
